FRIDAY, JAN. 1, 1897.

A Happy New Year to all!

Read the ads. in this paper and you will know where to do the best trading.

Good resolutions are in order. Begin to right, and stick to it.

As the New Year enters and the Old Year, we are compelled to take stock of past and present, and question the future.

The practical man will endeavor to sum up the lessons of the past, the mistakes,

the failures, and wiser now, will so plan

and resolve that '97 shall be a brighter,

more successful year than any that has been.

These thoughts, and this

weighing of balances will not be confined

to the working life, the business life, the

making, saving and spending of money,

but will include the moral life, the intel-

lectual life, the spiritual life, the

life which wishes to get all out of this short

life that is possibly will determine that

happiness is gained only by living well,

living so as to be, a help, and a com-

fort to others, having a high standard

of duty, by exercising charity and forbearance

in all the multitude of relations each with

the other.

EDWARD AVERY.

Died in Boston Tuesday.

EDWARD AVERY.

Prominent Lawyer and Leading Old-time

Democrat. Funeral from Church of

Emmanuel.

Edward Avery, the well-known lawyer,

dead in his residence, No. 261 Newbury

Street, Tuesday evening, at 9 o'clock.

He was a prominent lawyer and

had been unable to attend to his professional

affairs of his illness.

Mr. Avery leaves a wife, a son and a daughter.

The late Mr. Avery was a lawyer of fine

attainments, a wonderful versatile, and

a most interesting character.

He was a stalwart democrat, active and alert

in the field of politics, and his name was

hadly one of the leaders of the Massa-

cusets democracy for several decades.

A wife and two daughters, Mrs. W. C.

Hunt of Washington, D. C., and Mrs.

George Edy of Dorchester, survived him,

and his widow, Mrs. Avery, is a widow

of twenty-eight.

She was the daughter of Josiah White of

Absheron where she was born in 1818.

In the year 1841 she married Dr. Learned

and after a residence of three years in her

native place removed to North Weymouth,

where she resided for ten years.

Her husband, one of the best known

physicians in Fall River died twelve years

ago.

Funeral services were held from her

late home Thursday.

Fallerton, Holbrook.

The residence of Charles Sutson, Main

Street South Weymouth, was the scene of

the tragic last evening, when Ivan C.

Fallerton of Whitman and Miss Sarah

Aithwaite, daughter of Richard Holbrook of

North Weymouth were united in matrimony.

The ceremony was performed at 8 o'clock

by H. C. Alford of the Old South church.

Miss Abel Davison of East Weymouth

was bridesmaid and Willard Holbrook of

South Weymouth was best man.

The wedding march was played by Mrs.

Frances Fearing and Miss Anna Cushing.

Vocal music was given by Mr. Christy

and Miss Bates.

The newly married couple will reside in

Whitman.

There were many attractive presents.

OBITUARY.

Elijah D. Tilden a Well Known Citizen of North Weymouth Passes Away at His Home on North Street.

Elijah D. Tilden, a well-known citizen of North Weymouth, passed away Wednesday morning at his residence on North street.

The apparent cause of his death was paralysis although injuries received in falling from a building at Downer's nearly twenty years ago were probably the real cause.

He was born in Hingham October 23, 1813, and in the year 1853 married Anna Barnes, a fair daughter of Hingham.

He was connected with the firm of

Bush, Shibley & Tilden, wholesale

sugar manufacturers of Hingham.

Since his removal to North Weymouth, he has been in the employ of various shoe firms and was known as a patient, uncomplaining companion ready and willing to contribute his share in all needed improvements.

A wife and two daughters, Mrs. W. C.

Hunt of Washington, D. C., and Mrs.

George Edy of Dorchester, survived him,

and his widow, Mrs. Tilden, is a widow

of twenty-eight.

shake it off

The general belief among doctors is that consumption itself is very rarely inherited. But the belief is becoming stronger that the tendency to consumption is very generally transmitted from parent to child. If there has been consumption in the family, each member should take special care to prepare the system against it. Live out doors; keep the body well nourished; and treat the first indication of failing health.

Scott's Emulsion

of Cod-liver Oil, with Hypophosphites, is a fat-producing food and nervo-tonic. Its use is followed by improved nutrition, richer blood, stronger nerves and a more healthy action of all the organs. It strengthens the power of the body to resist disease. If you have inherited a tendency to weak lungs, shake it off.

SCOTT'S EMULSION has been induced by the medical profession to prescribe it as a "cure for consumption" (the doctor). This is because it is always *palatable*—always *uniform*—always contains the best Cod-liver Oil and Hypophosphites.

Put up in 5 cent and \$10 sizes. The small size may be enough to cure your cough or help your baby. All drugs.

JUST AS GOOD IS NOT SCOTT'S EMULSION.

AN ELECTRIC FURNACE.
Boston Scientist Claims to Have Solved a Great Problem.

If His Idea Proves Practical the Cost of an Electric Light Plant would be Just One-fourth of What it Is at Present.

To produce electricity as the direct result of the consumption of carbon without the intervention of a dynamo is a problem at present occupying the attention of many electrical engineers. The difficulty lies in the fact that the maximum obtainable in producing the electric current by the employment of the most improved type of engine operating a triple-expansion steam dynamo, is about one-half of what is obtained by a carefully arranged series of steps. The theoretical advantages have long been appreciated and at the present time the practical attainment of them in a high degree seems possible.

For many years it has been known that a current of electricity could be produced by burning carbon in contact with an electrolyte capable of supporting it with oxygen, but the construction on this principle, from which a feeble current was obtained, a true carbon-consuming electric furnace, showing an efficiency of 85 per cent, has now been constructed by the makers thereof. Inventors raising apples sufficient to make the cider they sell, may sell it in any quantity, not to be drunk on their premises.

Cider made in this Commonwealth, containing not more than three per cent of alcohol by weight at 60 degrees Fahrenheit, may be sold in barrels thereof, not to except those who have a license to sell liquor.

It is well to remember this, as old cider is apt to get beyond the three per cent limit.

Cider made in this Commonwealth, may be sold wholesale by the makers thereof, inventors raising apples sufficient to make the cider they sell, may sell it in any quantity, not to be drunk on their premises.

Cider made in this Commonwealth, containing not more than three per cent of alcohol by weight at 60 degrees Fahrenheit, may be sold in barrels thereof, not to be drunk on their premises.

Jaques began his investigations five or six years ago, and presented a series of experiments with the idea of determining the practicability of his electric furnace. The invention is based on the discovery that if oxygen, whether pure

or mixed with air, is caused to come in contact with carbon, it will burn.

Correspondence and items of news are solicited from all readers of the Gazette. Every one of some interest facts or happenings that others would like to read about.

While we have an efficient corps of regular contributors, there is no lack of material that in the nature of things they cannot get. Let your interest in your local paper and in your town lead you to make the Gazette the more bright and useful.

ENTERED AT THE POST OFFICE AT WYMOUTH, MASS., AS SECOND-CLASS MATTER.

FRIDAY, JAN. 8, 1897.

William Waldorf Astor has become a subject of Queen Vic's animosity, and she has alleged to Uncle Sam—Good—on the 20th, that New York's four hundred should do the same out country could be as well off. These English-spirited aristocrats can spare.

The Bram trial and verdict which has been the leading subject of conversation in Weymouth and surrounding towns still a matter of debate. Whether right or wrong the jury have rendered their verdict and Bram stands convicted of one of the most atrocious crimes ever perpetrated by the high seas. The question now is, did he do it in a wicked way? and on their judgment or act of violation to their convictions for the purpose of making themselves a unit. It is not clear in the minds of the people how a man can vote that it is right for capital and then with additional evidence of his life and a fellow man should be put to death.

There seems to have been misunderstandings which caused some of the Landing town orders to be taken to South Weymouth for payment, including the teachers bills, but they were sent back again to the Union bank and there paid.

There is taxes of 1895 and 1896 about \$28,000 unpaid which will more likely all drifts which may be made.

The town is a home to a number smaller cities and towns, and to its population or valuation than is customary in most cities and towns especially when we consider that it has been a hard year and demands for charity have been unusually large and the exigencies tax heavy.

The article headed "Business," the Town of Weymouth borrows for a living," in a Boston paper was overdrawn in the impressions it conveyed. The facts are that in March the town voted to authorize the borrowing of \$10,000 for the purpose of loaning. This has been borrowed and paid out to the taxes collected, and the town can issue no more notes on taxes still remaining uncleared. In this dilemma, which has occurred, the town is of course obliged to carry on drifts at the banks that are due.

These have always been carried at six per cent in the past. The selection in arranging for overdrafts is not less than 5 per cent. The First National of Weymouth accepted it at the Union National declined to accept, offering all the money wanted however at the rate of 6 per cent, it being generally understood that money on overdrafts with the Union National is passed more interest than on regular town notes which are payable at a certain time.

The only point in all the talk is the one of the rate of interest. The officials of the Union National in Weymouth have been paying less interest than town orders at that institution. They are paying them whenever presented. The only difference is that the Union bank will charge six per cent for any money overdrawn and the South Weymouth will give five per cent.

out in the rain

A good drenching in a cold rain is often the beginning of consumption. Yet no one claims that the germs of this disease exist in the rainwater. Then how was this brought about? The exposure was followed by a cold, the vitality was lowered; the cough continued for some weeks; the throat and lungs became congested; and thus all the conditions were favorable for the consumption germs.

Scott's Emulsion

of Cod-liver Oil, with Hypophosphites, does not directly attack these germs and kill them. But it does tone up the whole system and restores the body to health before serious harm is done. The germs of consumption thrive best when the system is weakened and the throat and lungs congested. Do not delay until it is too late, but treat your cough early. Cod-liver oil and the hypophosphites, in the form of Scott's Emulsion, are the very best remedies.

JUST AS GOOD IS NOT SCOTT'S EMULSION.

that, and four children, three boys and one girl, are the fruits of this union.

When Breidenthal came to Kansas he devoted his time to loan and investment schemes to the farmers of southern Kansas. His business methods were above criticism, and his honesty was never questioned by anyone who had dealings with him. About eight years ago he became interested in the socialist colonization scheme, which had for its object the purchase of lands in the state of Jalisco, Mexico, where it was proposed to establish a colony on the Bellamy plan. Breidenthal, however, had no sympathy with socialism, and it was through his efforts that the movement, and one shipment of people was made to that country. Several eastern socialists were connected with the movement, and about this time Mr. Breidenthal was in the saddle managing the populist party and he gave up the Tolopahomo scheme and devoted his time to politics. In 1892, when the movement had almost disappeared, he became elected to the state ticket, Leavitt being chosen governor. Breidenthal was rewarded with the office of state bank commissioner. His appointment was for four years, and when he left office he was again too ill to be desirous to return to residential, but the supreme court, which was republican, sustained the populist chairman, and he is still in that position.

EASY TO GET FAT.

If Your Drink is Right.

Skinny people generally are so because of their inability to digest the food which is passed from the stomach into the bowels. This is due to the fact that the stomach of the greedy, make fat tissue, but if the bowel digestion is weakened by coffee, tobacco, whiskey, etc., the person remains skinny. Leave off the weakening habits and try my plan of coffee Postum Cereal and milk. I have lost 15 pounds since taking Postum. It is a great improvement in a week's time. Nature is a powerful builder if left free to work without drugs and potions.

It should not be forgotten that 80 per cent of the body is liquid, therefore a healthful liquid is of the greatest necessity.

Why growers sometimes work in cheap imitations of Postum. Cereal coffee or the customer will stand.

Not a few who read what Mr. Robert Bowes of Holland, Va., has to say below, will remember their own experience under like circumstances: "Last winter I had a grape which left me in a low state of spirits, of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure. For sale at 25 and 50 cents per bottle."

As from the windows and doors of the "House of Many Mansions" we look on the passing spectacle—some of us will wish that we could be there, others that we never would be our highways; phosphorescence would illuminate our homes with a mellow glow like daylight; all our ready wealth would be made by wind, tide and compressed air.

People of Machias, Me., have managed to make the market without a barrel of apples to a dozen eggs.

It is a tribute to the skill of American shipbuilders that the first contracts made by Japan for new warships have gone to Cramp's ship yard and the Union Iron Works of San Francisco.

FRIDAY, JAN 15, 1897.

Will the question of "One High School" be settled at the March meeting?

The reception to Col. Thomas next week promises to be a very nice affair and of a flattering nature to him.

Subscribe for the Gazette, and receive it regularly. It is only \$2 per year, or \$1.00 for six months, or 50 cents for three months.

We begin this week a series of bright letters from our special correspondent at the State House. The letter will be found on our first page.

COUNTY CLOTH COOK IS BACK AT WORK IN HIS FIELD OF DUTIES AT PROBATE AND OUR JURORS WILL HAVE TO "SEE THE MARK." THAT MR. COOK WILL FILL THE PLACE WELL AND PROVE TO BE A POPULAR CLERK IS ALREADY PROVEN.

The testimony of those who have had occasion to deal with him in his new official capacity.

It is Chairman Morris of the County commissioners in office, but now Chairman Blanchard is at the head of our county affairs. This is the last step in breaking the power of the old ring. Mr. Morris will be practically a nonentity on the board for the year and next fall will be relegated to private life.

Of the thirty-two mayors of cities who have been installed in office since the election of 1880, and thus the uninterrupted and steady increase to its subscription list goes over a year ago. We hope that 1897 will prove a prosperous year for all our friends. Their friends have been won by us to the cause during hard times has been very gratifying to us. We know that with many of them the two dollars are important and the fact that they have been willing and ready to renew, with two exceptions, shows an earnest interest in the town and the town's paper.

Testimonial to Michael Donovan.

A grand testimonial concert and ball was held at the Hotel Franklin on Friday evening. The affair was under the auspices of Division No. 6, A. O. H. and was a grand financial and social success.

There was an excellent concert consisting of selections by the popular reader, Miss Anna L. Bates, and the singing of soloists, Thomas F. Allen, in his specialties was as funny as ever and the Quincy Male quartette rendered several

The grand march was at nine o'clock and was followed by about fifty couples. President John B. Whelan was director, vice president, Charles E. Riley and the aids Theo. Riley, James B. White, William Campbell, John B. Cooley, Peter Hayes, Frank J. Hayes, John B. Ryan, Thomas Spilman, Fred White, Dr. Joseph J. Sullivan and James H. Tracy.

OBITUARY.

Mrs. Daniel Sullivan.

Mary Coffey, wife of Daniel Sullivan, residing on Pond street, South Weymouth, passed away last Saturday morning after a short illness with kidney and heart trouble.

The following reception committee looked after the interests of the guests Patrick E. Corrigan, John W. Carey, Dr. George H. Tilden, Dr. Joseph J. Sullivan and James H. Tracy.

The funeral mass was celebrated at St. Francis Xavier church on Monday morning at 10 o'clock.

She was 61 years of age and leaves husband and two children.

The body was taken to the Catholic Cemetery in Abington for interment.

The bearers were John Sheehan, Cornelius Lynch, Daniel W. Hart, John Leahy, Thomas Leahy and Charles Daley.

OBITUARY.

Henry Shaw.

Henry Shaw, an aged and respected citizen of South Weymouth, passed away last Monday morning after an illness of a number of years. The immediate cause of death was the enlargement of the glands.

The committee of arrangements to whom the success of the affair is largely due was as follows. William F. Callahan, P. F. Hayland, D. A. Donavan, John B. Whelan, F. E. Dwyer, George F. Briggs and John W. Carney.

Weymouth Agricultural and Industrial Society Holds Annual Meeting.

The annual meeting of the Weymouth Agricultural and Industrial Society was held last Wednesday evening at South Weymouth and was well attended.

The business of the society is on the increase and the committee for the season of 1897 are very promising.

Many improvements are to be made, especially in the accommodations for training horses.

The annual meeting of officers took place at this meeting with the following results:

HEARD AND READ.

Being a collection of penitential and censorious by our editors.

Massachusetts has the largest cider mills in the world, using 8000 bushels of apples a day and producing 32,000 gallons of red cider daily. People who are not in the apple belt will readily see the profit in the fruit, for the growers get from six to nine cents a bushel.

The Japanese religion demands that a man must worship "the soul," every day. Princes and rich men evade this by sprinkling a little dirt in one corner of a room, sometimes on a square of cement made for the purpose.

About 60,000 trees are planted annually by the school children of Sweden. While the task is looked upon as an enjoyment, its effect on the future prosperity of the country will have high importance.

The value of the property, which back to Czar Strelitz, was \$100,000. Mrs. Watson was still a rich woman, her estate estimated at a trifle over \$20,000.00, which, with the \$1,000.00 of her husband, places the happy couple above immediate want.

Cardinal Gibbons is a believer in his "Knock cure," and frequently proves his faith last summer by taking early morning walks barefooted.

Aaron Barnham, the oldest man in Essex, died last week, aged 100 years and 10 months. He died in the house in which he was born.

William Robinson, a Missouri colored man, has been sentenced to prison for 102 years—10 years for killing his sweetheart and three years for robbing a horse.

The general idea that human slavery has nearly died out in the world is mistaken, according to a recent lecture before the American Geographical Society, who says that there are at least 50,000,000 slaves in Africa.

There is nothing that can be measured with more accuracy than electricity. The laws which govern its flow in a body are perfectly understood. The electrical shows how much he pours in. He can draw it out, measure it, treat it, in short, as it were water in a pipe.

It is announced that a Worcester pastor of a Congregational church has refused an increase of \$1000 in his salary just voted by his society.

There are some who insist upon giving bouquets to all their friends who die. They lay the flowers down beside the dead and say, "Smell of these." Give your friends flowers while they are alive.

If the police authority enforce rigidly the ordinance against peddling on city streets, good masters will be forced and incidentally the town revenue will be materially increased.

Now is the time when every blessed woman of us feels it incumbent upon her to rush wildly at every announcement of "bargain sales," in order to lose temper and health (and pocket-holes) in the wild scramble for mark-downs.

PERSONAL MENTION.

Dear Admiral Penrose Fitzgerald, of the British navy, is now engaged on the promotion of the late Vice Admiral Sir George Tryon, whose life is a very remarkable one.

An Italian named Corretto has invented an apparatus which enables him to remain under water 18 hours. Owing to an accident to the apparatus, however, he came near being asphyxiated.

The most noted of medical comedians was Wagner. He was equally great as a musician, poet, manager and conductor. His literary, theoretical and controversial works display immense erudition.

It has been accidentally discovered that to burn a man up to his neck in wet sand is a practically certain cure for apparent death.

When the case on his recent trial to prove his innocence of one man, while Sir Arthur Sullivan can now command \$2000 down for one song, while from "The Lost Chord" alone it is said that he has realized over \$5000.

"All actresses paint," observes R. A. Barnet, "but only the best of them draw well."

It has been accidentally discovered that to burn a man up to his neck in wet sand is a practically certain cure for apparent death from an electric shock.

CHURCH AND CLERGY.

Rev. H. P. Collin has withdrawn from the Presbyterian fold, having views not in harmony with the faith of the church, and has taken with him the important church of Coldwater, Mich., which was stated clerk of the synod of Michigan.

Rev. Dr. Isaac Henry Tuttle, one of the oldest Protestant Episcopal clergymen in New York, died recently in his home, West Forty-sixth street, after a long illness. When he was born in New Haven, Conn., in 1811, and was graduated from Trinity college in 1830.

Was a Maine girl who asked the photographer if he couldn't take her hair out.

Clark.—It's against the law to poison people to whom you look as if they want to commit suicide; but I'll let you have a bottle of Dr. Black's quinine elixir of life. That seems to be pretty sure death.—N. Y. Weekly.

Not a Clean Imitation.

What sort of stuff is this?" inquired the cook.

"That is muck-turk soup," said the bride. "I made it myself. I don't like it."

"Well, I dunno," said he. "But you can be sure that you will never be accused of plagiarism!"—N. Y. World.

THE DIFFERENCE.

The horse of Alexander the Great was named "Bucephalus." It was told that he always knew to take his master. He was 50 years old at the time of his death, and Alexander built a city for his mausoleum, which he himself never entered.

From the time of William the Conqueror to the period when artillery came into use horses were protected by chain armor. The weight of this proving a serious objection, knights sometimes substituted iron armors for the chain instead of the metal protection.

In 1850 and 1859 Barey, the American horse tamer, performed feats of taming in London which excited the admiration of all Europe. Besides taming the wildest and most vicious horses, he succeeded in taming a zebra, a feat which was deemed impossible.

A noisy muff is long and flat, with visible on one side and chinchilla on the other.

The tiny empire fan dangling from a chain puts the finishing touch on an evening toilet.

Among modern table requisites are high chocolate cups, of peculiar shape and design.

New photograph frames in Venetian glass afford exquisite effects in delicate tinted flowers and foliage.

No one style of hairdressing prevails, but the pompadour effect in front and a soft knot at the back seems to lead.

Festival of the Holidays.

A general "Festival of the Holidays" was given at Lincoln Hall, Wednesday and Thursday evenings under the auspices of the Clark Christian Endeavor Union was held last Friday evening at the Pilgrim Congregational church, North Weymouth.

Over four hundred members were present, delegates coming from Hingham, Rockland, Braintree, Quincy, and Co. In fact, Braintree and all the Weymouths.

After the audience had sung several hymns assisted by the choir, Rev. R. R. Kendall of Weymouth Heights invoked the divine blessing and the response was a solo by Miss Buck's "Save Regent" by Miss Thayer.

The address of welcome by the President, Samuel Vinat, was especially appropriate and he gave as the "97 watch word" "Forward and Upward."

The program was well received, concluded at the close of which President Vinat introduced the principle speaker of the evening, Rev. Judson Van Clancy, now of Medfield but formerly of South Weymouth. He selected as his subject "A Creed for '97" and followed himself thoroughly at home on the topic and the large audience showed its appreciation by remaining perfectly quiet.

At the business session the chairman of the nominating committee Ernest Vaughn of Weymouth made a short speech, followed by the voting of the President, Samuel Vinat of South Weymouth; Vice President, Frank E. Tucker of East Weymouth; Secretary and Treasurer, Leon F. Besse of Rockland.

At the close of the meeting the local church services were conducted in the church parlor and the convention dispersed with the feeling that North Weymouth although small in size was lavish in the entertainment of strangers. The program in full was as follows:

Organ voluntary, Miss Newton.

Scripture reading, prayer, Rev. R. R. Kendall.

Soprano solo, Miss Thayer.

Address of welcome, Rev. Vinat.

Address, Rev. J. V. C. Clark.

Music, choir.

Business, roll call and collection.

Closing hymn.

Benediction.

Reception to members in parlors.

Hello Central!

The New England Telephone Company are considering the matter of establishing an exchange in this town, which if done would be of great benefit to us, a great deal cheaper to our citizens. It is the only draw-back is the doubt if the town officials will give the company a right to erect poles in the streets.

A telephone exchange helps to quiet an extent to build up a town, and it seems that the New England Telephone Company has no trouble in getting a right to locate poles, that the town fathers should give the telephone company some show as it means the saving of good many dollars to our residents who are subscribers.

The Discovery Saved His Life.

Mr. G. Callouette, Druggist, Beverlyville, Ill., says: "To Dr. King's New Discovery I am sure you will be interested, with a desire to know more about it, a great deal cheaper to our citizens. THE PEOPLE'S COLUMN.

The column under this title will be given to the public for a free service, and we shall do our best to make the paper distinctly discussing all responsibility for the opinions here expressed.

Mr. Editor:

In your issue of Jan. 15th I notice a communication signed by H. F. Perry. I admire one thing in his letter and that is, he has the courage to sign his name instead of Progress or some other handle.

I am very interested in what has printed in the Boston papers or in your remarks of Jan. 8, issue, which articles appear every year before spring election and generally for the purpose of bemoaning some misfortune but I may intercede in the following which I quote from your issue of Jan. 1.

"But why did not the appropriation committee recommend as desired by the town treasurer that the sum borrowed be \$100,000 instead of \$70,000 and we would not have been in debt?"

Now Mr. Perry this remark of yours tends on a great many corns and I am one of that appropriation committee demand of you to publicly state who gave you your authority for making such a statement.

It is a well known fact that the Boston papers write about the same subjects.

For instance, the Boston Herald writes about the same subjects.

Our methods are perfection.
